

# Louis Bamidele

Frontend Developer | React & Next.js Engineer

Digital nomad (open for remote) | louis.bamidele.dev@gmail.com | bamidele.work | github.com/louis-bamidele | linkedin.com/in/akin  
gboeybamidele

## SUMMARY

Frontend developer with 6+ years in JavaScript and 5+ years building responsive, accessible, high-performance web apps with React, Next.js and TypeScript. Strong at translating Figma designs into pixel-accurate, WCAG 2.1 compliant UI, integrating REST APIs with secure JWT and OAuth flows, and shipping fast, SEO-strong products. Co-founder of two live products, comfortable owning features end to end in a Git-based CI/CD workflow.

## TECHNICAL SKILLS

**Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3

**Frameworks & Libraries:** React (Hooks, Context API, Redux), Next.js (SSR/SSG), Node.js, Express

**Styling & UI:** Tailwind CSS, shadcn/ui, Flexbox, CSS Grid, Framer Motion, responsive/mobile-first design, design systems

**APIs & Auth:** RESTful APIs, async data patterns, TanStack Query, JWT, OAuth 2.0, Stripe & Paystack integration

**Tooling & Testing:** Vite, Webpack, Git/GitHub, CI/CD (Vercel), Jest, React Testing Library

**Practices:** Accessibility (WCAG 2.1), performance optimization (code splitting, lazy loading, Core Web Vitals), Figma to code, SEO

## EXPERIENCE

### Freelance Frontend Developer, Remote

2020 to Present

- Built and shipped 15+ responsive React and Next.js applications across e-commerce, SaaS and local services, turning Figma designs into pixel-accurate, accessible components.
- Integrated RESTful APIs and third-party services (Stripe, Paystack, Supabase, Google Auth) using secure JWT and OAuth 2.0 flows and robust async data handling.
- Improved load times and Core Web Vitals via code splitting, lazy loading and image optimization; delivered SEO-ready, server-rendered pages with Next.js.
- Worked in a Git-based workflow with CI/CD on Vercel and partnered directly with designers and stakeholders, consistently delivering ahead of schedule.

### Co-Founder & Frontend Developer, MunchMart

2026

- Co-founded MunchMart and built its marketing site in Next.js and TypeScript, focused on fast load, mobile-first UX and conversion.
- Owned the front end end to end: component architecture, responsive layout, animation and analytics.

### Co-Founder & Developer, Tranquil

2024 to Present

- Co-founded Tranquil; built the marketing website and contributed to product and design decisions while shipping the native iOS app in Swift.
- Worked across engineering, design and go-to-market to take features from idea to launch.

### Full Stack Developer, Sweet Sound

2020

- Built an e-commerce store in React and Redux with a Node.js backend, secure Stripe checkout and email/Google authentication; ensured cross-browser, mobile-optimized quality.

## SELECTED PROJECTS

- NINFix** (ninfix.org): subscription web app. Next.js 14, TypeScript, Tailwind, shadcn/ui, Supabase, Paystack, TanStack Query, Zod.
- All-in-1 Car Rentals** (allin1carrental.com): full-stack rental platform with admin dashboard. React, MongoDB, JWT auth, Cloudinary.
- bamidele.work**: personal portfolio. Next.js App Router, TypeScript, Tailwind, custom WebGL with three.js, full SEO and structured data.

## EDUCATION

Bachelor of Science in Political Science, Obafemi Awolowo University (OAU), 2024
